

VOISIN LAW

Voisin Law team named in Citywealth Leaders List 2017 | 1

Five senior staff at Voisin Law have been recognised in the 2017 Citywealth Leaders list after receiving recommendations from their industry peers.

Now in its eleventh year, the prestigious independently endorsed list of leading figures collates the input of a large number of professionals within the private wealth and private client sector as well as their clients.

The 2017 list includes Voisin's Managing Partner Ian Strang and Partner Nigel Pearmain, who have both been previously named as Prominent Figures in the Leading Lawyers category.

Partner Jeffrey Giovannoni, Jersey solicitor Daniel Walker and Advocate Clare Nicolle are also cited on this year's Leading Lawyers' List.

Voisin Law Managing Partner Ian Strang said: "We are delighted that so many of our team have been recognised on this year's List, a true reflection of the high standard of service they offer our clients and Voisins' standing in the industry. We are very grateful to have these nominations and endorsements from both the people we work closely with, as well as some of our competitors."

One of Jersey's longest-established law firms, Voisin has particular expertise in commercial matters, including the use of Jersey trusts, companies and partnerships, banking, structured finance, collective investment funds and employee benefits.

Clients include leading banks, financial institutions and fund managers as well as a significant local and international private client base.
